ICP GROUP AUSTRALASIA PTY LTD

MANUFACTURER OF SPECIALTY COATINGS,
ADHESIVES AND SEALANTS

COMPANY PROFILE

ICP Group is an industry leader in coatings, adhesives, sealants and cleaning products for commercial, industrial and infrastructure use. With over a decade of proven delivery, ICP Group offers a differentiated portfolio of premium brands known for innovation, compliance and long-term performance.

Supported by a qualified team of industry professionals, ICP Group brings together strong technical knowledge, global manufacturing capabilities and local expertise. The company's commitment to quality has led to long-standing partnerships with contractors, applicators and leading organisations — supporting outcomes for customers where high performance and trusted certification are essential.

PRODUCTS

ICP Group manufactures and supplies specialised solutions across sealing, bonding, cleaning and surface protection. The company's brands, which include California Sports Surfaces, Stain-Proof, Fiberlock, Benefect and APOC, are suited to a wide range of project applications.

While ICP Group doesn't do onsite installations, it does support client outcomes through expert guidance, training and tailored product recommendations.

- California Sports Surfaces, Rebound Ace and Plexipave | Hard and cushioned sports surfaces
- Stain Proof | Stone and masonry sealants and cleaners
- Fiberlock | Abatement and remediation products
- Benefect | Commercial and scientific-grade cleaners and disinfectants
- HandiFoam | Expanding pressurised foam and adhesives

FROM THE PLA PRESIDENT

The best infrastructure in the world doesn't make our urban parks, reserves and open spaces thrive. It is the careful planning and strategy that goes into the design, delivery and activation.

Strategy starts pre-subdivision, when planners with great developers collaborate to deliver a vision for the future of a thriving, active community. In other circumstances, it starts when *some* great developers draw a line in the sand to protect a future community and ensure that they have access to parks, reserves and open spaces.

Parks & Leisure Australia brings together the *people behind the places*; we love to share the successes, and learn how we can do it better.

We undertake this role not from a commercial perspective but from a deep belief that through enhanced collaboration and learning we will make Australia the most liveable country in the world.

We achieve this by building the leaders of the future, fostering innovation, seeking excellence in all that we do, and acting with integrity and respect at all times.

Les Munn | President, Parks & Leisure Australia

PARKS & LEISURE AUSTRALIA (PLA)

Parks & Leisure Australia (PLA) is the leading industry association for parks and leisure professionals in the sector. Its aim is to build, serve and develop a strong and united parks and leisure industry in Australia.

THE VISION

For Australia to be the most liveable country in the world, renowned for its parks, sport and recreation facilities, which provide the foundation for healthy communities and liveable towns and cities.

BACKGROUND

PLA has a history dating back to 1925, when it was known as the Victorian Tree Planters Association. In 1962 it became a national body known as the Royal Australian Institute of Parks and Recreation. Finally, in 1998 a merger with the Australian Leisure Institute gave birth to Parks & Leisure Australia.

The organisation's strategic plan, *Towards 2025*, sets out a future pathway for the organisation, to ensure it remains relevant to members and establishes a solid foundation on which to build a strong voice for the sector.

WHAT DOES IT DO

As the national peak body for the *people behind the places*, PLA supports its members through the provision of training, professional development, research, advocacy and a range of products and services to support you and the industry. Its members are diverse, with individual needs, priorities and desired levels of support.

SECTORS PLA REPRESENTS

Professionals employed in the sector work across policy, planning and provision of assets, services, facilities, programs and research, and include: community and urban planning; parks, environment, biodiversity and conservation; sport and physical activity; tourism, arts and interpretation; and research and academia.

KEY BENEFITS OF A PLA MEMBERSHIP

Events

- Discounts to conferences, events, seminars and field days
- The opportunity to network and grow connections

Industry Awards and Certifications

- Apply for the National Awards of Excellence
- Apply for various scholarships
- Receive Green Flag Accreditation for your park and/or open space
- Become an internationally recognised Certified Parks & Leisure Professional (CPLP)

Research and Advocacy

- Access local and international research and resources through the new PaRC Library
- PLA research best practice and act as the voice for the industry on behalf of its members

Engagements

- Get your questions answered with a new Industry Forum
- Meet like-minded professionals from your state through local networks
- Use the online discussion forum to network, interact with industry peers, and learn about day-to-day issues experienced by others in your industry

Business Development

- Advertise employment opportunities
- Gain access to top industry talent and recruit the right people for your organisation
- Promote tender opportunities

News

- Receive the AP&L Journal by mail or read it online
- Keep up with the latest news and events
- Receive regular eNewsletters from various states and territories

WORLD URBAN PARKS ORGANISATION

ASSOCIATION PROFILE

World Urban Parks (WUP) is the organisation to go to for international advice, support and getting connected with urban parks, open space and recreation issues, people and activity. WUP combines the experience of its members and partners with opportunities to help build urban parks leadership, to bring about significant improvements in cities where rapid urbanisation is occurring.

AIMS AND OBJECTIVES

World Urban Parks will champion urban park outcomes for city liveability, placemaking, conservation and access, and provide strong membership services by connecting, leveraging and supporting diverse memberships.

The Mission

To promote and support the provision, effective management and use of urban parks, open space and recreation worldwide as an integral contribution to healthy communities connected to the natural world.

Long-term Goals

Park Networks | Comprehensive and well-managed urban parks and city open space, improving the quality of life for urban dwellers and protecting natural and cultural values.

Park, Open Space and Recreation Benefits | The economic, environmental, cultural and social values of urban parks, open space and recreation are well understood and supported across the world by communities and their governments.

People Networks | Urban park, open space and recreation managers and

stewards are well connected with ready access to quality information and training to enhance their effectiveness.

Global Voice | WUP is recognised as the global unified voice for urban parks, open space and recreation.

MANAGEMENT

World Urban Parks Incorporated is an international organisation registered in New Zealand. The organisation has a governing board, four regions and nine member-based Standing Committees within the areas of advocacy, alliances, membership and governance.

BENEFITS OF MEMBERSHIP

Advocacy | A global voice supporting the value and benefits of parks and the industry through science and unity.

Best Practice | World-class communities, organisations and professionals recognised for high standards and efficiencies through congresses, benchmarking, awards and certification.

Collaboration | Resolving issues and increasing knowledge and capacity through diverse networks of colleagues and partnerships.

MEMBERSHIP CATEGORIES

WUP acts as an umbrella to national associations and connects park agencies, non-governmental organisations, universities, research institutes, businesses, community groups, individuals, and allied sectors such as health, tourism, and resource management.

KIDSAFE PLAYGROUND ADVISORY SERVICES

BACKGROUND

Designing playgrounds is exciting and rewarding. The Australian Standards for playgrounds are the baseline for designers, manufacturers, owners and operators to achieve challenging playspaces for children in a safe, creative environment. The Kidsafe Playground Advisory Units, available in NSW, WA, SA, Queensland and the NT, are a valuable resource to assist in ensuring safety, managing risk and providing inspirational, inclusive, challenging and educational playspaces. The other Kidsafe Offices in Tasmania, ACT and Victoria can also support the industry by arranging support and resources via their qualified Kidsafe colleagues.

ASSOCIATION PROFILE

Kidsafe offices across Australia are independent, not-for-profit charities dedicated to preventing unintentional death and serious injury to children. Kidsafe advocates on child safety issues and undertakes public awareness campaigns. It provides information and guidance to parents and carers, education and care services, schools, government and non-government agencies, community organisations and industry. The Kidsafe vision, A Safer World for Kids, aims to minimise risks that can lead to injury in children aged 0–15 years. Kidsafe is a national organisation with over 40 years' experience in working across a range of communities supporting stakeholders across sectors including education and care services, local, state and territory governments, play related research, child safety advocates, as well as various industry groups and peak bodies.

SERVICES

Services offered by Kidsafe Playground Advisory Units include:

- Free telephone and email advisory services
- Nationally recognised Playground Inspector courses
- A range of workshops and webinars on topics including playground safety and inspection, maintenance, compliance, Australian standards and regulations, inspiring design, equipment selection and natural play.

These can be customised.

- Comprehensive playground inspection services
- Review of playground plans
- Online resources and publications
- Community consultation

Note: Services vary from state to state.

Kidsafe Project Officers have qualifications in one or more of the following:

- Playground inspection
- Education
- Training
- Work health and safety
- Playspace design and landscape architecture

PROLUDIC

PLAYGROUND AND OUTDOOR FITNESS EQUIPMENT

COMPANY PROFILE

Proludic is creating inspiring playground and outdoor fitness areas around Australia — inclusive spaces enjoyed by everyone, nature-inspired playspaces that engage children in fun and active play, themed playgrounds that encourage imagination and creativity, and fun-sport fitness areas that get every 'body' moving!

Proludic's Play and Project Consultants throughout Australia can advise you on the creation and implementation of inspiring playground and outdoor fitness areas. Together with Proludic's landscape architects and construction experts, the consultants bring local knowledge and years of experience in providing community recreation facilities.

Innovation is in Proludic's DNA, and the team is no stranger to creating bespoke designs for custom projects. The creativity of the designers and quality manufacturing ensure original, durable and sustainable projects.

Contact Proludic for help with your next playspace or outdoor fitness area project.

PRODUCTS AND SERVICES

Proludic's equipment designs are functional, yet aesthetically pleasing. They're flexible and modular, integrate well with the natural environment and are sustainable. Proludic's products are made of durable recycled and recyclable materials, comply with Australian Standards on safety, are easy to maintain, and are built to last.

Whether you need advice regarding selection of the right item of equipment for the right place, bespoke design or help with the design and implementation of your project, Proludic is ready to assist you.

WILLPLAY PTY LTD

DESIGNED BY BIG PEOPLE FOR LITTLE TREASURES

COMPANY PROFILE

WillPlay is a full-service design and construct manufacturer of play and fitness equipment. With a factory located in Bundaberg, Queensland, and extensive industry experience, WillPlay can offer complete play and fitness solutions for any size project.

Committed to high-quality, environmentally friendly, Australian-made products, WillPlay offers exceptional play value through its extensive low-maintenance, long-life product range. All play elements comply with relevant Australian standards and are installed by WillPlay's skilled team of certified installers.

PRODUCTS AND SERVICES

WillPlay supplies and installs an extensive collection of standard play and fitness equipment, including, but not limited to:

- Outdoor playground equipment
- Outdoor fitness equipment
- All-ability and inclusive play equipment
- Climbing structures, cableways and custom rope structures
- Swings, springers and freestanding motion equipment
- Rubber and loose-fill softfall surfacing
- Shade structures (sail and hard)
- Park and street furniture
- Commercial indoor play systems

Choose from a comprehensive range of standard designs, or speak to the WillPlay design team about a custom designed/themed system to suit your project.

WillPlay also offers a complete installation service, with the ability to manage all aspects of your project from design through to construction and maintenance.

INHOUSE DESIGN AND MANUFACTURE

WillPlay's modern manufacturing facility, combined with the power of a creative in-house design team, creates the capacity to customise and theme a project far beyond standard everyday play equipment. Give the team your wildest ideas and watch WillPlay transform them into a play system that stands out from the crowd.

COMMITMENT TO THE ENVIRONMENT

As part of WillPlay's vision to operate in a sustainable and environmentally responsible manner, its products feature:

- Post-consumer recycled HDPE panels
- Recycled timber/plastic composite components
- HDPE roto-moulded panels
- Marine-grade aluminium and stainless steel

WillPlay's environmental policy dictates that all elements of its equipment can be recycled at 'end-of-life'.

COMMITMENT TO AUSTRALIAN MANUFACTURING

WillPlay designs and manufactures its products in Australia. Where possible, raw materials are sourced from Australian manufacturers, including, but not limited to:

- Post-consumer recycled HDPE panels
- Recycled timber/plastic composites
- Extruded aluminium posts
- Roto-moulded tubes and slides
- Stainless steel components
- Polycarbonate sheet

Every WillPlay system supports Australian manufacturing and provides jobs in Australia.

ASPACE

CREATING INSPIRING SPACES SINCE 1995

COMPANY PROFILE

ASpace is dedicated to creating innovative outdoor fitness and playspaces that help build healthier, more active and more playful communities. Since 1995, ASpace has focused on designing and manufacturing safe, high-quality and exciting equipment.

The company's inhouse design team works closely with customers to understand their needs and develop tailored plans that satisfy all stakeholders. Recognised by the Australian Manufacturer's Hall of Fame for its high manufacturing quality, all ASpace products are installed under the guidance of experienced project managers, while the after-sales service division ensures maintenance and spare part requirements are only a phone call away.

Now proudly part of The Play Collective, ASpace benefits from a nationwide network of play and fitness experts, enhancing its ability to deliver outstanding projects across Australia.

PRODUCTS

ASpace offers end-to-end consultation, design, manufacturing, installation and maintenance services for outdoor fitness and play spaces. The equipment is designed to suit different user groups, site conditions and budgets, enhancing the team's ability to deliver outstanding projects across Australia.

PLAY

ASpace provides a broad range of play equipment designed to get kids outside and active. From classic spring rockers to large, dynamic play towers, the products encourage exploration, movement and imaginative play.

FITNESS

The outdoor fitness range is built to promote strength, cardio fitness and flexibility for users of all ages and abilities. Designed for diverse settings, ASpace equipment helps create healthier, more active communities.

OBSTACLE COURSES

Inspired by the Australian Ninja Warrior phenomenon, ASpace has innovated obstacle circuits like Active Play Circuits and Park Warrior.

Each circuit has a clear start and finish, with a series of obstacles in between, designed to develop strength, mobility, dexterity, problem solving and resilience in children.

Park Warrior targets teens, youth and young adults, featuring a connected app that lets users record times and compete within their community.

DESIGN SERVICES

PlayCo tailor every space to meet a project's unique needs. Whether choosing from the versatile range of ready-made equipment or wanting a fully custom design, the expert team will work closely with specifiers to bring the vision to life.

Offering a complimentary design service, ASpace collaborates at every stage to ensure outdoor fitness or play spaces meets all project goals. The full-service approach includes design, project management of installation and coordinating any subcontractors needed to deliver a project on-time and on-budget.

QUALITY GUARANTEED

PlayCo is committed to building outdoor fitness and play equipment that stands the test of time. Crafted with precision and built from durable materials, the products are designed to perform reliably and safely for years.

ASpace back this commitment with comprehensive warranties and responsive after-sales support, so the investment stays protected and space stays active.

FORPARK

HELPING YOUNG AUSTRALIANS GROW

COMPANY PROFILE

For over 45 years, ForPark has been designing and building Australian-made playgrounds and outdoor fitness equipment. ForPark is proudly committed to its products being Australian-made, manufacturing inhouse wherever possible, and working closely with local suppliers to support the Australian industry.

As part of The Play Collective, ForPark works alongside ASpace to offer customers access to the country's most comprehensive range of commercial playground equipment, plus a national team of play consultants, factories and installers and maintenance teams.

ForPark is known for its quality and trusted for its customer service. It's why ForPark products continue to deliver year after year.

PRODUCTS

Play

ForPark designs outdoor play spaces that inspire kids to climb, explore, imagine and move. The versatile play solutions combine classic and innovative elements that encourage physical activity, social connection and creative fun. From striking play towers and climbing challenges to freestanding features and nature play, the ForPark team creates environments that spark endless adventures for all ages.

Fitness

ForPark's durable outdoor fitness equipment supports healthier, more active communities. Designed for all ages and abilities, it promotes strength, flexibility and cardiovascular fitness. Whether it's traditional fitness tracks or custom ninja-style obstacle courses, ForPark delivers engaging options that motivate movement and wellbeing.

Playground Markings

More than decoration, ForPark's playground markings encourage active play and learning. From agility ladders to running tracks and fitness circuits, they transform flat surfaces into dynamic movement zones that keep kids moving and having fun.

Street and Park Furniture

ForPark provides durable, stylish outdoor furniture that complements play spaces and encourages social connection. From seating and tables to shelters, the furniture designs enhance comfort and usability, creating welcoming places for kids, families and communities to gather.

See *Hard Landscaping > Street & Outdoor Furniture* for more information.

DESIGN SERVICES

At ForPark, every playground is designed around the project's unique needs. Specifiers can choose from a wide range of ready-made designs or work with an expert team to create custom equipment tailored to the project.

The qualified design team offers a free service, guiding through every step to ensure the playground or outdoor space matches the vision and requirements.

ForPark is committed to a full-service approach, providing design support, project management for equipment installation, and coordinating any subcontractors needed to deliver a project smoothly and on time.

QUALITY GUARANTEED

ForPark builds playground and fitness equipment to last. The structures are designed and manufactured with durability in mind to ensure the investment stands the test of time.

In support of this, ForPark offers a full 20-year warranty on all its steel structural play equipment items and a 25-year warranty on the outdoor fitness range.

ACTIVITY PLAYGROUNDS

DESIGNER, MANUFACTURER AND INSTALLER OF AUSTRALIAN-MADE PLAYGROUND EQUIPMENT

COMPANY PROFILE

Activity Playgrounds is a proudly Australian-owned and -operated business with over 30 years of experience delivering high-quality playgrounds across Victoria and South-East Australia. Established in 1991, the company designs, manufactures, supplies and installs durable outdoor play and recreation spaces tailored for schools, councils, early learning centres and public open spaces.

Combining expert craftsmanship with locally sourced materials, Activity Playgrounds offers fully customisable solutions that support physical, social and cognitive development through play.

The business stands apart for its inhouse design and manufacturing capabilities, its commitment to safety and Australian standards, and its personalised service from concept to completion.

PRODUCTS AND SERVICES

Activity Playgrounds offers a wide selection of playground equipment designed to inspire active, imaginative and inclusive play. As both a manufacturer and installer, the company delivers turnkey playground solutions that include:

- Custom-designed playgrounds
- Modular play units
- Climbing nets and rope play structures
- Swings, seesaws, rockers and spinners
- Fitness equipment
- Natural timber and hybrid steel-timber structures
- Rubber undersurfacing and landscaping
- Park furniture and fencing
- Full installation and aftercare service

Activity Playgrounds also provide site audits, repairs, relocations and ongoing maintenance, ensuring equipment remains safe and functional for years to come.

COMPOSITION AND MANUFACTURE

All Activity Playgrounds equipment is proudly manufactured in Victoria using Australian steel and sustainably sourced native timber. All components meet or exceed Australian safety standards, with finishes engineered to withstand the country's harsh outdoor conditions.

MR TRAMPOLINE

THE ORIGINAL INGROUND PERFORMANCE TRAMPOLINE

COMPANY PROFILE

Mr Trampoline has been supplying inground trampolines and two-string performance trampoline beds to the world for over 70 years.

Designed and made in Australia to suit the rigours of commercial life and outdoor conditions, Mr Trampoline high-performance products are the benchmark of commercial and public space trampoline equipment.

This family-owned, Australian manufacturing business is the premium trampoline manufacturer in Australia, making products for Australian families, athletes and commercial ventures, including BOUNCEinc, NSW Institute of Sport and Lorne Foreshore, among others.

PRODUCTS

Mr Trampoline offers a range of off-the-shelf and fully customisable commercial trampoline products in a variety of sizes. The flexible and durable colour coatings even allow for a custom logo and centre mark to reflect client branding.

- **Inground** | The frame is set to the ground prior to excavation.
- **Deck** | For building into dedicated timber construction, bolted down to reinforced and formed concrete walls, core-filled reinforced block walls, and for structurally designed post-and-sleeper pit installations.

Typical inground installation requires an excavation of 1.2 metres. Mini models requiring a 0.7-metre pit depth are also available.

Inhouse experts can assist with technical drawings and contractor liaison to help with any questions clients have regarding installation.

DESIGN FACILITY

Through many years of R&D (including a collaboration with RMIT University), Mr Trampoline has developed premium trampolining products that are vastly superior to anything else on the market.

COMPOSITION AND MANUFACTURE

Mr Trampoline's performance trampolines are guaranteed and built to last. The frames are made from all-Australian steel, galvanised through a hot-dip process that provides decades of serviceability. These frames won't rust, even in coastal areas.

The springs are made from high-tensile galvanised steel in accordance with Mr Trampoline's specifications, and attached to a uniquely designed wiggle bar on the side of the frame for superior life and accurate spring placement.

The bounce beds are woven on specialised looms and, to this day, maintain their position on the global stage as the most in-demand, high-performance, and longest-life commercial and competition trampoline beds available. All product coatings are designed to withstand the harsh outdoor elements of the Australian climate.

WHY MR TRAMPOLINE?

When choosing a trampoline for a sport and recreation facility, you need to be confident in your choice of trampoline supplier. Mr Trampoline has years of experience in this area and is the supplier of choice for a host of reasons, including:

- **Safety** | All commercial operations must maximise safety at all times. Installing the best quality, longest lasting trampoline is the best insurance you have.
- **Longevity** | A premium product made with top-quality materials and designed with every consideration is the best peace-of-mind you can get purchasing a big-ticket item like an in-built trampoline.
- **Maintenance** | Reliable after-sales service, along with quality fixtures and fittings if anything needs replacing. Mr Trampoline products are backed by a genuine warranty to protect your investment.

JUNGLE PLAY

NATURALLY-INSPIRED SCULPTURAL PLAY EQUIPMENT

COMPANY PROFILE

Jungle Play (formerly Art Dinouveau) create play sculptures and botanical concept furniture pieces that bring giant versions of nature's creatures to life. Designed by artists, sculptors and technicians from a forest-surrounded studio in Queensland, the sculpture pieces are true-to-life, with fastidious attention to detail that creates a sense of awe and a new way of relating to nature's wonders.

Jungle Play is in its third decade of operation, having supplied play equipment to countless outdoor and indoor playspaces in public parks, schools, childcare centres, kindergartens, hospitals and retail centres, creating vibrant and engaging environments for children of all ages to enjoy.

Jungle Play's sculptures combine artistic vision with an understanding of what sparks the imagination and facilitates creative play. The unique bespoke sculptures never fail to add a sense of whimsical magic to a playspace, with the added benefits of industry compliance and a resilient build that makes them a worthwhile investment.

PRODUCTS AND SERVICES

Jungle Play's range of play sculptures include giant toadstools, mushroom tables and chairs, gum leaf cubby pods and benches, blossom stools, tree houses, giant turtle climbers, beehive cubbies, and hollow logs. Also featured are oversized flora and fauna play sculptures such as ladybirds, caterpillars, bees, tortoises, daisies and more.

Flora and fauna sculptures can be customised to reflect the surrounding environment of any project, creating an additional link to the natural landscape in which children will play.

Jungle Play sculptures are a popular choice with landscape architects and interior designers, who frequently specify Jungle Play products for projects worldwide.

COMPOSITION AND MANUFACTURE

Each Jungle Play piece is fabricated using heavy-duty fibreglass and finished in polyurethane, marine-grade two-pack paint with a protective graffiti-proof varnish. Each product is designed and built for years of play.

A young child with blonde hair, wearing a red hooded cape and a red mask, is playing on a red mushroom-shaped playground structure. The child is leaning forward, holding onto the grey handle of the structure, and has a joyful expression with their mouth open. Another child's arm is visible on the left, also holding the handle. The background is a soft-focus outdoor setting with greenery. The image is overlaid with a semi-transparent purple and pink gradient.

Listen closely
& you can hear
the sound of joy.

Welcome to Urbania.

Many of the skills we need as adults are developed in the playground. At Urbania we create imaginary worlds where kids can take risks, overcome fears and make new friends.

As well as amazing playgrounds, we also offer contemporary street-furniture and end-to-end landscaping packages. And our background with Marcus Constructions means we also handle all the work needed to bring community spaces to life.

Let the adventures begin.

AUSTRALIAN SURFACING SUPPLIES PTY LTD

AUSTRALIA'S LEADING SUPPLIER OF SPORTS, PLAY AND RECREATIONAL SURFACING PRODUCTS

COMPANY PROFILE

Australian Surfacing Supplies is Australia's leading supplier of the world's premium materials to the playground and sports surfacing industry.

With more than 30 years' experience in the design, innovation and installation of playground and sports surfacing systems, and with the backing of some of the world's best manufacturing companies, Australian Surfacing Supplies is best suited to assist with any project requirements.

Australian Surfacing Supplies has warehouses in Adelaide, Melbourne and Brisbane allowing its products to be distributed across Australia with ease.

PRODUCTS AND SERVICES

Australian Surfacing Supplies is home to the world's leading surfacing brands including:

Gezolan EPDM Granules | From the world's leading manufacturer of rubber granules for sports and leisure surfaces.

PlayKote | Precoloured granules, SBR granules, Granule/4 mesh mix (in one 25kg bag).

Stockmeier Urethanes | Binders designed for the construction of playground, sports and leisure flooring systems. Stobitan running track systems are also available, produced using Gezolan EPDM granules.

Rubber Mulch | Created from 100 percent recycled tyre rubber with a natural bark appearance, suitable for bonded and loose installations with excellent porosity. Reduced sub base and less ongoing maintenance required. Exceptional results from free height of fall testing on bonded rubber mulch.

Wet Pour Rubber Repair Kits | Created for small pour-in-place rubber repairs. The repair kits are easy to install, with a wide range of colours available.

Synthetic grass | Manufactured using the latest cool grass technology and UV-stabilised materials to protect against fading and deterioration in harsh climates. A large variety of grasses are available, suitable for landscaping, pets, multi sports, sports, golf and tennis.

Greenset | High-quality acrylic surfacing as used by over 600 tournaments worldwide, such as ATP, WTA, ITF, Davis Cup, and the Olympic Games.

Tetra Tiles | A high-performance shock pad made from recycled SBR. The interlocking underlay system is designed to provide superior impact absorption and drainage beneath synthetic turf or rubber surfacing. Tetra Tiles enhance safety, comfort and longevity for playgrounds, sports fields and recreational areas.

INDUSTRIAL BY NATURE

MANUFACTURERS OF NICHE PRODUCTS THAT ENHANCE PUBLIC SPACES

COMPANY PROFILE

Industrial By Nature (IBN) is Australia's multi-award winning manufacturer of creative solutions for active open spaces. IBN works with landscape architects, schools, councils and builders to deliver unique solutions that challenge the concept of play – it is CHALLENGE PLAY!

A one-stop-shop, IBN designs, engineers and manufactures its structures, building all products in Melbourne, Victoria, with distribution Australia-wide. The company's exceptional service ensures its quality products are integrated into dynamic playspaces across Australia.

PRODUCTS

Industrial By Nature has an expansive product range of creative solutions for active open spaces.

BOULDERING* is IBN's active sport and playground range. It is designed for all ages and abilities and is particularly appealing to the teen demographic. A bold statement of colour and shape, it has an infinite number of climbing routes and challenges. IBN's wide variety of bouldering configurations can suit any environment and footprint and are most popular in schools, parks and public playspaces.

CUMULUS is IBN's innovative, modular climbing structure that provides an introduction to climbing and bouldering. Popular with landscape architects, the structure is a rambling mix of colouring climbing surfaces that are perfect for younger climbers. Available in any colour and can fit in any space, CUMULUS provides limitless challenges for the young and adventurous, giving play an exciting new look.

FUSION is IBN's basketball and futsal goal for municipal multi-use courts. Now in its tenth year of manufacture, the classic design is a proven crowd pleaser and a striking addition to any multi-use space. It is available in a range of colours and custom, stealth backboard specifications.

Introducing **INFINET**. Through years of refinement and exhaustive engineering, IBN have released INFINET 4.0. This patented innovation brings the much needed net back to high-traffic public basketball courts. A unique, world-first design, IBN is supplying INFINET to basketball courts worldwide.

COMPOSITION AND MANUFACTURE

Industrial By Nature is proudly Australian-made and owned, creating, designing, engineering, prototyping, testing, reviewing and manufacturing its products in Victoria. IBN has a diverse range of development skills, a fully equipped design studio and factory space to build its large range of products.

Each aspect of a component plays an important role in terms of lifecycle, quality and the experience of the user. IBN uses its own custom stainless-steel fasteners to secure its structures, giving them a clean and crisp finish.

IBN products are all fully recyclable, reusable or repairable. IBN manufactures locally to minimise the cost and environmental impact of shipping. They recycle all excess steel and polyethylene to local processors and donate all usable components (ie: holds, volume, etc) at end of life. IBN has a complete cradle to cradle manufacturing philosophy.

TRAILWORX AUSTRALIA

OUTDOOR EXPERIENCES

COMPANY PROFILE

Trailworx is one of Australia's leading creators of recreational trails, specialising in the design, construction and maintenance of innovative and sustainable outdoor recreation networks. From mountain bike trails and pump tracks to hiking and walking trails, Trailworx partners with clients to deliver immersive, environmentally conscious and culturally significant spaces that promote outdoor activity and community wellbeing.

PRODUCTS AND SERVICES

Trailworx offers a full spectrum of trail development services, beginning with expertly crafted designs that balance functionality with aesthetics. Every project is informed by advanced geographic information system (GIS) mapping to analyse terrain, environmental constraints and cultural considerations to ensure trails are safe, accessible and seamlessly integrated into the natural landscape.

Construction is carried out by a team of experienced builders using modern techniques and equipment to deliver durable and visually compelling trails. Trailworx also provides condition auditing services and on-site assessments to identify areas requiring rectification, supported by accurate cost projections.

Maintenance is a core focus, with tailored programs designed to keep trails safe, enjoyable and open year-round. Complementing these services is the production and installation of wayfinding assets, including both directional and cautionary signage for visibility, user safety and environmental preservation.

PARKITECT AUSTRALIA

EXCLUSIVE SUPPLIER OF MODULAR PUMP TRACK PLAYSPACE SOLUTIONS. SAFE RIDING FOR ALL AGES

COMPANY PROFILE

Parkitect Australia is the exclusive importer and distributor of the unique European Modular Pumptrack system. With pre-designed modules and customisable track configurations, they're ideal for public and commercial sites and community playspaces. Parkitect's free design service and pre-engineered, certified pump track modules mean project costs are significantly reduced. The precise design geometry of each track offers a proven, fun riding experience for people of all ages, in all seasons. Parkitect Australia's owners are passionate, experienced riders, which drives the successful outcome of every pump track project.

PRODUCTS AND SERVICES

The Modular Pumptrack system offers fast assembly and a cost-effective playspace solution. Its versatile and innovative design makes it a safe and sustainable riding surface for fun or fitness. Parkitect's customisable system consists of precisely engineered modules that come together to create unlimited track designs to suit any project. Each Modular Pumptrack has precise geometry and a proprietary high-grip surface. This guarantees a proven riding flow for bikes, scooters and skateboards, all year round. Available in two new versions: Precast Concrete (Urban Edition) and Glass Fibre Reinforced Polymer (Park Edition). Both versions deliver the ultimate in design and long-life low-maintenance material for optimum riding safety and fun. The environmentally-friendly design of these pump tracks are sleek, rounded and low to the ground, they are also 30 percent wider than earlier designs, further improving safety. Modular Pumptracks remain mobile throughout their lifetime. Tracks can be changed, upgraded or removed anytime. All track designs comply with Australian Standards AS EN14974:2021, and our service is fast and free.

UNIVERSAL PLAY

AUSTRALIAN MANUFACTURERS OF IN-GROUND TRAMPOLINES

COMPANY PROFILE

Universal Play designs and manufactures quality and sustainable commercial grade, in-ground trampolines to support inclusive and all-ability play. The key point of difference is the bouncing mats, which are produced from repurposed conveyors belts from Australian mines that would otherwise end up in landfill. These mats are made to order and can be customised with any design provided by customers or choose from Universal Play's wide range of options.

Proudly Australian owned and made, the trampolines have been engineered to withstand Australia's extreme conditions and are manufactured to the highest quality. Universal Play offers each product in galvanised steel or stainless steel.

PRODUCTS AND SERVICES

The Air Jumper in-ground trampoline range is designed for safe, inclusive and all-ability play. Universal Play provides for landscape architects, councils, local governments, schools, early learning centres and supplies direct to playground industry members Australia-wide.

The Air Jumper size range includes:

Single Trampolines | Kindy, Disc, Halo

Wheelchair Accessible | Wheely, Track

Multiple Trampolines | Quadrant, Saturn, Snake, Infinity

SK8SCAPES

SKATEPARK UPGRADES AND SERVICING

COMPANY PROFILE

Sk8scapes designs, supplies, services and upgrades public skateparks. Created in 2009, Sk8scapes ethos is that of renewal and refurbishment rather than removal and re-creation, with a focus on the renovation of old steel skateramps with newer, safer designs.

PRODUCTS AND SERVICES

Many skateparks in Australia are made from steel, often at least 10 years old and in need of replacing. Sk8scapes redesigns skateparks with upgraded layouts and subcontracts steel fabrication factories to build the redesigned skateramps.

Sk8scapes' skatepark services include:

- Adding concrete sealant to current concrete skateparks, extending the life and safety of the park
- Supplying steel pumptracks
- Replacing council skateparks with new steel ramps
- Consulting on the upgrade or repair of existing council skateparks to meet project requirements

COMPOSITION AND MANUFACTURE

While most skateparks created in the last 10 years are made entirely from concrete, Sk8scapes focuses on the older, steel-fabricated skateramps, offering a renewal service that keeps to the traditional steel materials.

HARD LANDSCAPING
**POOLS, SPAS
& SAUNAS**

THIS CHAPTER PROVIDES INFORMATION ON

Pool Building Materials and Surrounds | Pool and Decking Furniture
Pool Designers and Builders | Pool Enclosures | Spa Domes | Spas and Saunas

FROM THE SPASA CEO

Pools and spas provide the fun and relaxation of holiday time at home; particularly important when holiday options are limited. Homeowners are seeing the current climate as an opportunity to invest in their backyard, and to improve functionality as well as health and wellness opportunities within the home.

Applications for pool installations are on the rise across Australia and the world. Many of our pool builders are fully booked for the foreseeable future and don't have time to keep up with the latest information on restrictions to operations. SPASA continues to guide our members through this challenging time, collating information to keep our members informed.

This situation has placed advocacy even higher on the agenda, with significant focus on recognising essential services within the industry, while continuing to advocate on everyday issues. Whether it is safety barriers, electrical standards, fibreglass pool manufacture and installation, or energy efficiency for pool pumps, SPASA has been active in lobbying and ensuring the views and interests of members are considered by the relevant authority.

SPASA training continues to strengthen, having rebranding to The Institute of Research & Learning, and the nationally accredited Pool Safety Inspector Course added to the RTO's scope of registration. Our effectiveness as educators comes from our broad-based approach to education, which includes not just formal instruction but a deep understanding and involvement in the swimming pool and spa industry.

The Association is proud of the growth of Climate Care Certified, the pool and spa industry's efficiency and sustainability certification program. Members of SPASA can promote their products, services and installations under an industry-approved, environmentally sustainable program.

I thank all members, sponsors, partners, committees and directors for their vision and support as we continue to drive the swimming pool and spa industry into a sound and prosperous future.

Lindsay McGrath | CEO, SPASA

SWIMMING POOL & SPA ASSOCIATION LTD (SPASA)

ASSOCIATION PROFILE

The Swimming Pool & Spa Association Ltd and the Pool and Spa Association Ltd New Zealand (SPASA) is the largest peak swimming pool and spa industry body in the southern hemisphere. SPASA is dedicated to the improvement of the health and happiness of the community through the promotion and growth of the pool, spa and outdoor living industries.

SPASA's role is to educate, promote and advocate for the betterment of all members and the community.

The Association represents the entire Australian aquatic leisure industry, recognising five key pillars to ensure relevance and credibility to all members.

These encompass:

- **People** | To empower and develop members through improved skills and knowledge.
- **Promote** | Promotion of a professional trade delivering exceptional products that improve the health and wellness of the community.
- **Representation** | To advocate responsible outcomes for members and consumers at local, state, federal and international levels.
- **Member Services** | To provide exclusive products, services and networking delivered locally that represent all sectors of the industry.
- **Corporate Support** | To adopt a consistent improvement model for an effective and efficient corporate structure.

SPASA members improve the lives of a large percentage of everyday people by facilitating the healthy fun and wellness of swimming.

SPASA is proud to have developed Climate Care Certified (CCC), the pool and spa industry's efficiency and sustainability certification program. Through CCC, members of SPASA have their innovative products, services and installations industry certified, promoted and advocated for as environmentally sustainable.

The brand-new Institute of Research & Learning (IRLearning) has a variety of nationally accredited courses including Retail, Service, Construction, Business and Pool Safety Inspector courses. IRLearning is also a consultancy-based industry research organisation that provides advocacy and advisory services to various industries. Its expertise allows SPASA to participate in industry-led projects and author papers impacting various sectors.

The Association's effectiveness as educators comes from its broad-based approach to education, which includes not just theory instruction but a deep understanding and involvement in the swimming pool and spa industry. Advocacy through active representation to all levels of government. Policy creation from the ground up, with members and advisory committees providing real world input through to involvement in regulatory committees and Australian Standards.

Whether it is safety barriers, electrical standards, fibreglass pool manufacture and installation, or energy efficiency of pool pumps, SPASA is active in lobbying and ensuring the views and interests of members are considered by the relevant authorities.
