ANCHORING ROPE AND RIGGING

GROUND ANCHORING, RIGGING AND LIFTING SOLUTIONS

COMPANY PROFILE

For over 15 years, the Australian-owned Anchoring Rope and Rigging (AR&R) has been an industry leader in ground anchoring, rigging and lifting technology. As pioneers in percussion earth anchoring technology, the company prides itself on its ability to offer ground anchoring solutions tailored to individual project requirements.

AR&R is committed to becoming a world-leading developer and manufacturer of percussion ground anchoring technology. The company's ongoing research and development into new products puts it at the forefront of industry innovation, allowing it to develop systems that improve efficiency and customer services.

As Australia's first choice for anchoring, rope, rigging and instant foundation technology, AR&R have helped stakeholders all over the nation to complete a wide range of commercial and civil projects safely and effectively.

PRODUCTS AND SERVICES

AR&R supplies unique solutions to any ground anchoring, lifting, rigging and instant foundation challenges. With a range of products available across three categories, AR&R provides specialist products and services to companies in the energy, mining, civil, marine, agricultural and industrial sectors.

ANCHORING SOLUTIONS

- Hulk earth anchors
- Screw anchors
- Anchor rods
- Hulk staples
